

Our Mission

St. Mary's Foundation promotes the funding of cutting-edge hospital advancements through charitable giving and stewarding donor gifts—all enables the provision of excellent medical care through understanding, humankindness, and dignity.

We compliment the work of the hospital in ways that would not be possible without the support of our generous donors.

Your Community Hospital & Foundation

How can you be a part of something much larger than yourself?

St. Mary's Medical Center is your local hospital where staff remember you.

We are a major urban medical center providing personalized care with advanced technology. All funds raised are reinvested back into the medical center to ensure the highest quality of care for you and your loved ones with humankindness.

Join us on your health journey.

Gift of Healing

Meet Ed Batista

Here is a first hand account of how humankindness is firmly rooted in our work:

Suddenly I became truly frantic, desperate for relief. Tears were streaming down my face, and I felt both humiliated and aware that it was ridiculous to feel humiliation in these circumstances.

I felt like a helpless child, and before the meds kicked in the only comfort to be found was in holding Amy's (my wife) hand as she sat next to me, wiping my tears away. The meds did kick in, thankfully, and the ER team diagnosed my condition and were able to schedule me for surgery very quickly.

I am so tremendously grateful to my doctors and nurses at St. Mary's, and I cannot thank them enough for their responsive and compassionate care. I remember the ER nurse who administered my medication and took care of me and the technician who conducted my CT scan. I am so thankful for all of them. I certainly remember my surgeon and anesthesiologist, who, along with the OR nurse, comprised the all-women surgical team who took me apart and put me back together again.

“This work attracts so many talented, dedicated people who are willing to put up with so much. It says something about the human spirit. We've already donated to the St. Mary's Foundation to express our appreciation, but I can't ever repay the debt I owe them. Thank you.”

Accelerating Healing

Back Pain - Spine Robot

First in Northern California to purchase and use the robot which decreases complications and revisions, patient radiation exposure, and speeds up patient recovery time because it allows minimally invasive surgery.

Robot quickly plans procedure, location, and details, then navigates and guides the screws before the surgeon touches a drill.

Early Breast Cancer Detection - 3D Tomosynthesis & Ultrasound

First in the Bay Area to have this 3D technology that increases cancer detection by 31%.

Decreases false positives by 13% and improved images are in 1mm slices.

Heart Health - Electrophysiology (EP)

Among the first to introduce EP which incorporates both diagnostic and therapeutic services that focus on the heart's electrical conduction system.

Includes electrocardiograms, tilt table testing, arrhythmia mapping and induction along with implantation of devices such as pacemakers and defibrillators.

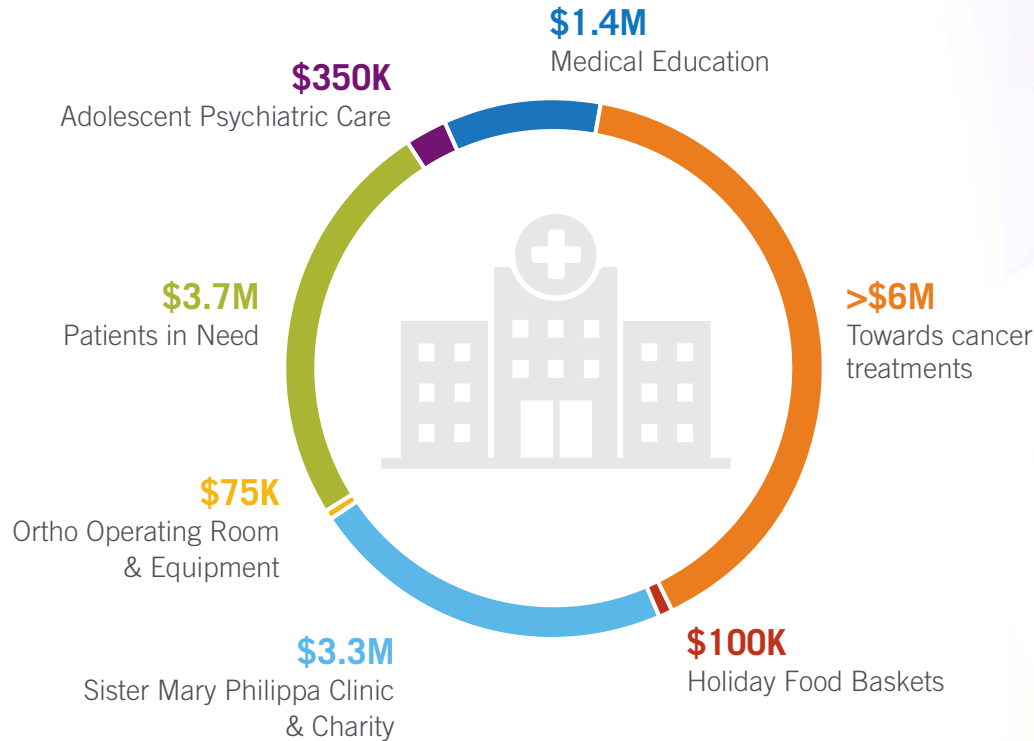

Oncology - Radiation Therapy

One of the first to bring this short distance radiation oncology treatment to our patients.

Administered 2 times a day for 5 days rather than daily for 4-6 weeks and gives our patients a choice that better fits their quality of life.

Impact of Your Support

Your gift however large or small has an impact. Here's how:

Future of Care

Where are we headed?

Working side-by-side with the hospital and physicians, the Foundation supports St. Mary's as a leader in excellent patient and community care.

Together we will continue to achieve great strides in the areas of:

- Growth
- Leadership
- Quality
- Safety

*St. Mary's Way is exceptional people, extraordinary care.
Every Patient - Every Day - Every Way*
